# PROJECT SHEET

## Richmond Shire Council

### Project Overview

SGPS were engaged as Project Managers for the Reconstruction of 7km of Highway 30km West of Richmond. The project included full width stabilisation of sub-base, unbound base course and supply and installation of 12 culvert crossings. Further to the highway upgrade, SGPS were also heavily involved in the submission process and construction phase of the 2011 Main Roads flood damage works for Richmond Shire Council. SGPS catalogued and priced all works which had been approved by Main Roads for construction.
